Dear Marvin:

Our church leadership says thank you for your work in leading us to the financing package that you created. Eighteen months ago as we began to envision what we needed to do next in the way of developing facilities, we became very fearful of the impact it would have on our budget. However, once we became aware of your services, and the availability of LIBOR financing, the project started coming together.

Your method brought the banks to our doorstep where they competed for our business, something we had not experienced before. Highview has truly been advanced because of our alliance with your company.

Amazed by HIS grace,

Norman Coe
Associate Pastor
